While autofocus is usually the most efficient setting for the Canon 5D Mark III, there are some situations where it makes more sense to use manual focus. It is also possible to set the Canon 5D Mark III so it will use a combination of autofocus and manual focus. You can learn more about using manual focus by watching this online video.

Using manual focus - lynda.com

I just got off the phone with support Canon USA - Support started with the same story as yours. I basically had the same response as you, including mentioning a Youtube video of someone with a 5D Mark IV show AEB in manual mode and how shutter changed on thier camera rather than aperture - They said they would get back to me.
